

Reports and Dashboards in Salesforce

Independent Project: Use Salesforce to Create Reports and Dashboards

Baiba Zvaigzne

Project Overview

1

Task 1: Create a Tabular Report

2

Task 2: Create a Summary Report

3

Task 3: Create a Matrix Report

4

Task 4: Business Case Analysis

Project Overview

5

Task 5: Create a New Report

6

Task 6: Create Report Charts

7

Task 7: Create a Dashboard

Task 1: Create a Tabular Report

On the following slide, insert a screenshot of the tabular report you just created and ran.

Task 1: Create a Tabular Report

Report: Opportunities

All opportunities closed and won

Total Records

2

	Opportunity Name v	Stage v	Expected Revenue v	Type v
1	Farmers Coop. of Florida-	Closed Won	\$1,543.75	-
2	Yaloo Search-	Closed Won	\$470.00	-

Task 2: Create a Summary Report

On the following slide, insert a screenshot of the summary report you just created and ran.

Report: Leads

All time leads - working-contacted

Total Records

11

Lead Source	Lead Status	First Name	Last Name	Title	Company / Account	Rating	Lead Owner
Web (3)	Working - Contacted	Brenda	Mcclure	CFO	Cadinal Inc.	-	OrgFarm EPIC
	Working - Contacted	Tom	James	SVP, Production	Delphi Chemicals	-	OrgFarm EPIC
	Working - Contacted	Norm	May	VP, Facilities	Greenwich Media	-	OrgFarm EPIC
Subtotal							
Phone Inquiry (1)	Working - Contacted	Violet	Macleod	VP, Finance	Emerson Transport	-	OrgFarm EPIC
Subtotal							
Partner Referral (3)	Working - Contacted	Patricia	Feager	CEO	International Shipping Co.	-	OrgFarm EPIC
	Working - Contacted	Shelly	Brownell	SVP, Technology	Western Telecommunications Corp.	-	OrgFarm EPIC

Task 4: Business Case Analysis

In a short paragraph on the following slide, describe how using various reports in Salesforce would help SimplySocial make data-driven decisions. In your description, include:

- The overall purpose of reports, report filters, and report types
- The major steps you took to create various reports
- How SimplySocial would benefit from using reports

Task 4: Business Case Analysis

Using reports in Salesforce helps SimplySocial see what's really going on in the business and make smarter decisions based on data, not guesses. I created different reports by choosing the right report type, adding filters to focus on what matters most, and using charts to make the results easy to understand.

With these reports, SimplySocial can quickly spot trends, track team performance, and see which areas need more attention—helping the whole team work more efficiently and make better decisions.

Task 5: Create a New Report

On the following slide, insert a screenshot of the new report you just created and ran.

Task 5: Create a New Report

Task 6: Create Report Charts

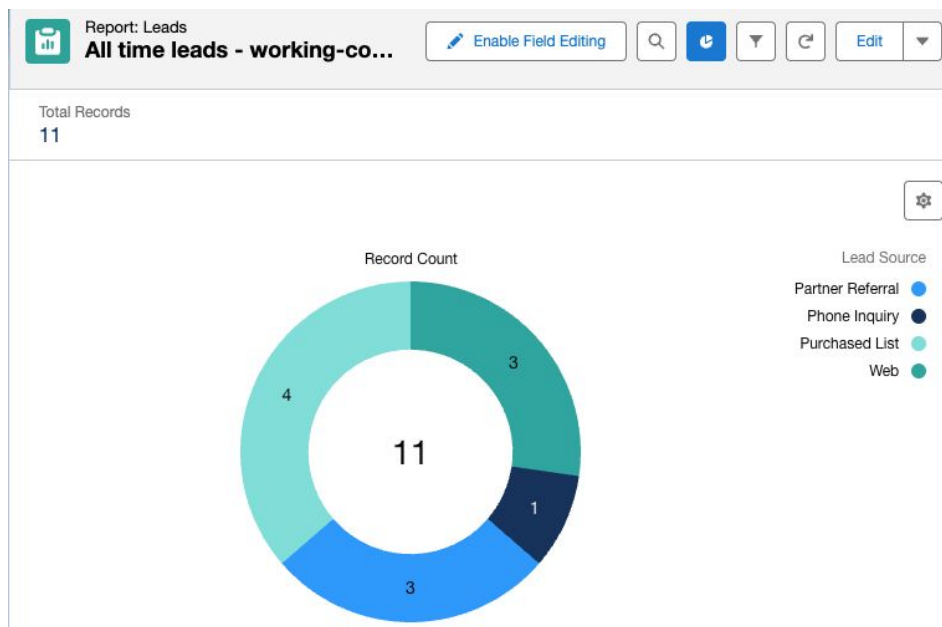

On the following slides, insert screenshots of the charts you just created:

- *Step 1: All opportunities of all time that have been “Closed – Won” among new customers, with opportunities grouped by industry*
- *Step 2: All leads of all time that are currently “Working – Contacted”, grouped by lead source*
- *Step 3: Expected revenue of all time for open opportunities where probability is >30%*
