

Lead Management in Salesforce

Independent Project: Use Salesforce to Identify Sales Prospects

[Your Name]

Part A Overview

1

Task 1: Structure and Download Lead Data

2

Task 2: Import Data in Salesforce

3

Task 3: Create a List View and Filter for Leads

4

Task 4: Associate Leads With a Campaign

5

Task 5: Business Case Analysis

Part A, Task 1: Structure and Download Lead Data

After you've finished cleaning up the data and fixing all the errors in the spreadsheet data, insert a screenshot of all the lead data in your spreadsheet. Make sure you can see all the columns, including:

- First Name
- Last Name
- Title
- Company
- Phone Number
- Email

Replace the text box on the following slide with your screenshot

Part A, Task 1: Screenshot

Part A, Task 3: Create a List View and Filter for Leads

Insert screenshots of the Demo leads list view for each of the steps below in the following slides. Your screenshots should show that you've:

Step 1: Created a clone of the leads view titled "Demo Leads"

Step 2: Added a filter to only be able to see leads that are open and haven't been contacted

Step 3: Made sure all noted fields are visible and in the right order

Step 4: Created a separate tab for the leads.

Module 3 Managing and Qualifying Leads

Module 4 Enhancing Sales Productivity and Converting Leads

Task 3: Create a List View and Filter for Leads

Great job importing the leads data into Salesforce! Before you finish up in Salesforce, you need to help Molly the marketing associate do a couple more things.

Step 1: First, you need to organize and view the leads easily. Create a clone of the newly uploaded leads, title that clone "Demo Leads", and pin this new list view for easy access.
(Optional) Update your portfolio slide deck: Embed your screenshot into Slide 8.

Step 2: Add a filter so you can quickly see what leads are open and have not been contacted yet.
(Optional) Update your portfolio slide deck: Embed your screenshot into Slide 9.

Step 3: To further streamline your view of these leads and make sure the right information appears first, make sure that the Name, Lead Status, Title, Company, Mobile, and Email fields are visible and are in that exact order.
(Optional) Update your portfolio slide deck: Embed your screenshot into Slide 10.

Step 4: Finally, to make sure that this leads view that you've just organized is prominent and easy to access, create a separate tab of this list view.
(Optional) Update your portfolio slide deck: Embed your screenshot into Slide 11.

Task 4: Associate Your Leads with a Campaign

Before Molly is ready to hand off these leads to the sales team, help her make sure that the data is properly organized. To do this, associate the leads with a campaign so it's clear where they came from.

Associate all of the leads that you just brought in with a campaign by adding the leads to a new campaign you create in Salesforce.

Fill out the new campaign for Molly the marketing associate with the following information:

- Campaign Name: Social Media Conference Email Campaign
- Type: Email
- Status: Completed
- Start Date: 7/24/2019
- End Date: yesterday's date
- Expected Revenue in Campaign: \$10,000
- Budgeted Cost in Campaign: \$5,000
- Actual Cost in Campaign: \$4,500
- Expected Response (%): 5.00%
- Num Sent in Campaign: 300

Make sure that you set Member Status to "Responded" since these leads did respond to the campaign.

Get started by sending an email, scheduling a task, and more.

No past activity. Past meetings and tasks marked as done show up here.

Part A, Task 5: Business Case Analysis

In a short paragraph on the following slide, describe how importing and organizing data in Salesforce would help the sales and marketing teams SimplySocial. In your description, include:

- The overall purpose of importing and organizing data.
- The major steps you took to import and organize data.
- How the sales and marketing teams at SimplySocial would benefit from imported and organized lead data in Salesforce.

Part A, Task 5: Written response

Importing and organizing lead data in Salesforce basically makes life easier for everyone at SimplySocial.

The goal is to keep all lead info clean, in one place, and easy to use. I started by prepping the file, checking for duplicates, making sure fields like email and phone matched the right format, then used the Data Import Wizard to get everything into Salesforce and mapped correctly.

With the data tidy and organized, sales can focus on the right leads and keep track of follow-ups, while marketing can target the right groups and actually measure what's working.

In short, everyone spends less time cleaning up data and more time turning leads into real results.

You have reached the end of **Part A!**

Make sure your screenshots are embedded in the appropriate slides before moving on. Note that you will complete Part B of this Independent Project at the end of Week 4.

Part B Overview

- 
- 1 **Task 1:** Filter Leads to Decide Who to Approach
 - 2 **Task 2:** Initiate Contact With Leads via Email
 - 3 **Task 3:** Continue Contact With Leads via Calls
 - 4 **Task 4:** Mark Leads as Hot
 - 5 **Task 5:** Create Email Templates
 - 6 **Task 6:** Convert Leads

Part B Task 1: Filter Leads

After creating the necessary filter for the Demo Leads list, insert a screenshot showing the list with the leads filtered by manager. Make sure to adjust the size of the Title column so that all the leads' titles can be read.

Part B Task 1: Screenshot

Part B Task 4: Mark Leads as Hot

Insert a screenshot showing the leads marked as hot and warm on the leads list. Make sure that “Rating” is a displayed field on the leads list and that you have organized the list so that hot and warm leads appear first. The leads that appear marked as hot and warm may include leads that pre-existed in Salesforce before you imported your leads.

Part B Task 4: Screenshot

Part B Task 6: Convert Leads

Insert screenshots on the following slides to show the updates you've made to each lead according to the directions below:

Step 1: Screenshot Thandiwe Bandi's lead record page.

- *Make sure your screenshot shows the lead's name, the note you created, and that their lead status in the lead path is updated to Closed – Not Converted.*

Step 2: Screenshot Janet Steinberg's lead record page.

- *Make sure your screenshot shows the lead's name, the note you created, and that their lead status in the lead path is updated to Closed – Not Converted.*

Step 3: Screenshot the popup after converting Martha Newman.

- *This is the popup labeled "Your lead has been converted". Make sure that the screenshot shows the Account, Contact, and Opportunity that have been created.*

Step 4: Screenshot the popup after converting Denise Choi.

- *Make sure to show that an Account, Contact, and Opportunity have been created.*
